EXECUTIVE BRIEF · ENTERPRISE IT & CLOUD OPERATIONS LEADERSHIP

Ravindran Mani

Director of IT & Cloud Operations

Location Miami, Florida **Email** ravindran.mani@yahoo.com **LinkedIn** linkedin.com/in/ravindranmani
Web ravindran.in

PROFILE

IT and cloud operations leader with 22+ years across the US and India. I lead enterprise IT and 24x7 global cloud operations for GxP-regulated eClinical SaaS platforms, owning a multi-million-dollar technology portfolio. Most of my career has centered on one problem: keeping complex, highly regulated systems reliable while they migrate, scale, and modernize underneath the people using them.

500+	−44%	24x7	70 subs
Critical servers migrated to Azure and AWS	VM footprint (900 → 500), no loss of service	Global operations for eClinical SaaS platforms	Azure landing zone architected end-to-end

CORE EXPERTISE

- **IT strategy & roadmaps** — technology direction, capacity plans, operational risk controls
- **FinOps & budget ownership** — accountable cloud spend, IT budgets, and forecasting
- **Business continuity & DR** — recovery strategy against defined RPO/RTO targets
- **Azure landing zone architecture** — a 70-subscription landing zone with segmented subnets, centralized firewall, Application Gateway, Front Door
- **Cloud migration & consolidation** — on-premises workloads, VMs, and data centers to Azure and AWS
- **Vendor & MSP governance** — SLA and KPI ownership across teams and providers
- **Security & monitoring** — threat detection, conditional access, DLP, audit logging for GxP and HIPAA
- **Identity & access** — Okta, Azure AD, and AWS IAM with RBAC and conditional access

LEADERSHIP EXPERIENCE

Director, IT and Cloud Operations

Jan 2025 — Present

Global eClinical SaaS provider · Miami, Florida

- Lead enterprise infrastructure strategy and 24x7 global cloud operations for GxP-regulated eClinical SaaS platforms.
- Architected an enterprise Azure landing zone from the ground up: 70 subscriptions, each segmented into 4 subnets, secured behind a centralized Azure Firewall with Application Gateway and Front Door for global load balancing.
- Led the migration of 500+ critical servers to Azure and AWS, cutting the VM footprint 44% (900 to 500 VMs) with no loss of service.
- Implemented enterprise MDM with Microsoft Intune across Windows, macOS, iOS, and Android, integrated with Apple Business Manager for zero-touch enrollment.
- Govern cloud spend, IT budgets, and forecasting through FinOps; define roadmaps, capacity plans, and disaster recovery strategy.
- Lead distributed technical teams and oversee vendors and MSPs with SLA and KPI ownership.

Associate Director

Jan 2024 — Dec 2024

Global eClinical SaaS provider · Bengaluru, India (remote) / Miami, US (on-site)

- Directed daily operations for eClinical Cloud Services, including 24x7 support, deployments, monitoring, and incident response.
- Initiated data center consolidation and migration of VMs, SQL Server clusters, SharePoint, and application workloads to Azure.
- Designed high-availability infrastructure across Azure availability zones with security monitoring and compliance guardrails.

EARLIER EXPERIENCE

Senior SharePoint Administrator
Oct 2017 — Jul 2023

eClinical software company · United States / Bengaluru, India

- Owned enterprise SharePoint Server and SharePoint Online/M365 architecture for a GxP-regulated eClinical platform, including hybrid on-premises-to-cloud integration.
- Led migrations from on-premises SharePoint to SharePoint Online and Azure-hosted infrastructure with no data loss.
- Automated site provisioning, permissions, and governance with PnP PowerShell and Power Automate; built and hardened CI/CD pipelines and infrastructure-as-code.
- Implemented RBAC, conditional access, DLP, and audit logging to meet GxP and HIPAA compliance requirements.

Technical Architect
Nov 2016 — Oct 2017

Technology consulting firm · Audubon, Pennsylvania

- Designed cloud and SharePoint architectures for CTMS and reporting platforms (SSRS, Power BI, Tableau) and standardized information architecture.

Associate Technical Architect
Jan 2015 — Oct 2016

Technology consulting firm · Mumbai, Maharashtra

- Led a five-member team delivering SharePoint architecture, deployment, monitoring, and support for eClinical products.

Consultant to Senior Software Engineer
Apr 2004 — Dec 2014

Mumbai, India & Milwaukee, Wisconsin

- Progressed from ASP.NET development into SharePoint architecture and consulting across on-premises SharePoint, Project Server, and TFS-based CI/CD delivery.

TECHNOLOGY

Cloud & infrastructure	Azure, AWS, Windows Server, SharePoint, SharePoint Online, Microsoft 365
Networking	Azure Virtual Network, VPN Gateway, ExpressRoute, Load Balancer, Front Door; AWS VPC, Direct Connect, Route 53, Elastic Load Balancing
Automation & DevOps	PowerShell, PnP PowerShell, Power Automate, Terraform, Bicep, ARM templates, Azure DevOps, GitHub, CI/CD
Identity & access	Okta, Azure AD (Entra ID), AWS IAM, ADFS, RBAC, Conditional Access, DLP
Monitoring	Azure Monitor, Site24x7, SolarWinds, Grafana, Datadog
Endpoints	Microsoft Intune, Apple Business Manager, Windows, macOS, iOS / iPadOS, Android
Data & reporting	SQL Server, SSRS, Tableau, ASP.NET

CERTIFICATIONS & TRAINING

CISSP	In progress
Google AI Essentials (Google, via Coursera)	Oct 2026
AWS Certified Cloud Practitioner	Sep 2026
Google Cybersecurity Professional Certificate	Sep 2026
ISO 9001:2015 & ISO/IEC 27001:2022 Lead Auditor Training (BSI), attended and passed	Apr 2025
Microsoft Certified: Azure Administrator Associate	Jan 2023
MCTS: Managing Microsoft SharePoint Server 2016	Aug 2020
MCTS: SharePoint 2013, Advanced Solutions · Core Solutions	2015
Microsoft Certified Professional · MCTS: SharePoint 2010	2013

EDUCATION

MCA · Madurai Kamaraj University	2000 — 2003
BSc Physics · Sri Kumara Gurupara Swamigal Arts College	1997 — 2000
